

Field Trips

Our Social Studies curriculum is focused on the study of Wisconsin. Therefore, we have many opportunities to visit places that provide greater insight into our understanding and appreciation of Wisconsin history. We will be taking several educational field trips throughout the year. Our exciting destinations will include a visit to the Hartford Buckskinners to witness an authentic Native American and Fur Trader rendezvous, a tour of the state capital when we focus on government, a stopover at a local dairy farm to experience first hand Wisconsin agriculture and a journey to Old World Wisconsin to experience a culmination of Wisconsin history.

Each trip will provide an opportunity for parents to chaperone. You will be notified in advance of dates, cost, times and other important details as arrangements are finalized.
